

**MATH 3130-300**  
**Introduction to Linear Algebra**  
**Week 8**

**Daily Homework**

<b>Date</b>	<b>Section</b>	<b>Assignment</b>
7/24	7.1	1–6, 13, 14, 19, 26, 29, 30
7/25	7.2	1, 4, 5, 7, 8
7/26	7.4	
7/27		Review
7/28		Final Exam

I will be away for the last four days of class at a conference in the Netherlands. Dr. Catone will be covering those days for me. His email address is [catonec@euclid.colorado.edu](mailto:catonec@euclid.colorado.edu). I expect to have email access at the conference, so you can email me at [Allen.Mann@Colorado.EDU](mailto:Allen.Mann@Colorado.EDU) if you have any problems. I will grade the final exams after I return, so your grades may take a little longer than usual to appear on CUConnect.

The final exam will cover sections 1.1–1.9, 2.1–2.3, 3.1–3.3, 4.1–4.7, 5.1–5.3, 6.1–6.5, and 7.1–7.2. Out of 100 points, 50 points will be over old material (up to section 5.1), and 50 points will be over new material (section 5.2 onward). There are 10 points of definitions and 10 points of proof.
