

**PREFACE: PROCEEDINGS OF THE INTEGERS CONFERENCE
2023**

The *Integers Conference 2023* was held May 17 - 20, 2023, at the University of Georgia in Athens, Georgia. There were sixty-four talks presented, representing a wide range of topics in number theory and combinatorics. The conference featured one-hour plenary talks by Michael Bennett, James Sellers, Lola Thompson, and Catherine Yan. This special volume of *Integers: Electronic Journal of Combinatorial Number Theory* consists of nineteen refereed articles that stemmed from talks given at the conference. The conference was made possible with the generous support of the National Science Foundation and the Department of Mathematics at the University of Georgia.
